

South Luangwa

The South Luangwa National Park marks the end of the Great Rift Valley, one of the last remaining unspoilt wilderness areas and possibly the finest wildlife sanctuary in Africa - a claim which is not an overstatement.

It is through this 9050sq kilometer National Park that the great meandering Luangwa River runs, with its ox bow lagoons, tributaries, riverine supported woodlands and large plains, all of which play host to huge concentrations of game including elephant, buffalo, leopard, lion, giraffe, hippo and over 450 species of birds.
